Isi's Signature Talks

Taming Your Time Dragons

Focus, the key skill in improving your personal productivity, is only possible if you know how to deal with your main "time dragons" – procrastination, distractions and multitasking.

In this talk, Isi provides you with easy to implement strategies to tame these dragons once and for all so that you can reach your goals.

Setup up your Mind for Success

In this interactive talk, Isi covers the 8 toxic mindsets that will always torpedo your personal productivity and uncovers the 7 healthy mindsets to adopt instead.

Bio

Isi has been working in the Productivity and Time Management field for many years, starting with being a Professional Organiser and Declutterer in 2008. She has a real passion for the subject and can get quite geeky about it, even reading books around personal productivity and habit creation for fun (seriously!).

Helping people with her skills is the main reason she got into this as a career, coaching people one-on-one, in groups through workshops and as a speaker.

Testimonials

Although we were well briefed on the scope of the training, it was difficult to know exactly what it would look like and how valuable it would be, but it surpassed all expectations. It was incredibly useful, surfacing key themes affecting productivity and packed full of ideas, techniques and practical suggestions to improve productivity.

I will be leading on a follow-on piece of work to ensure the team are continually reminded of the content of Isi's session and that the charity fully encourages and supports healthy ways of working.

Claire Hislop, Head of Operations, Solving Kids' Cancer

Isi communicated with each individual, then as a group. We learnt how each other worked and Isi put together a strategy for working more efficiently. I would highly recommend her services to assist anyone looking to use their time more effectively.

Haidee Watson, Watson Knipe Accounting

One of the challenges that we are grappling with is supporting productivity and work-life balance in a hybrid working environment. Through the last couple of months we've worked with Isi Dixon to better understand the challenges faced in all of our teams, and what we can do to better support team leaders and staff members. Through workshops tailored to team needs based on surveys completed by each team member Isi was able to help lift the lid on the challenges in each team. Isi's practical tips and tactics have been valued by staff and team leaders alike, and helped us make the next step in our journey.

Will Roberts, COO, Youth Sport Trust
